4. I feel that my child will need additional support in understanding some of the content.
 13 responses

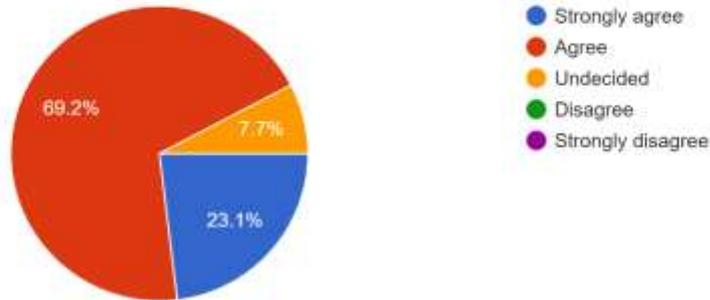

5. I understand and accept that my role is as the 'first educator' of my child(ren) on matters related to teaching human sexuality.
 13 responses

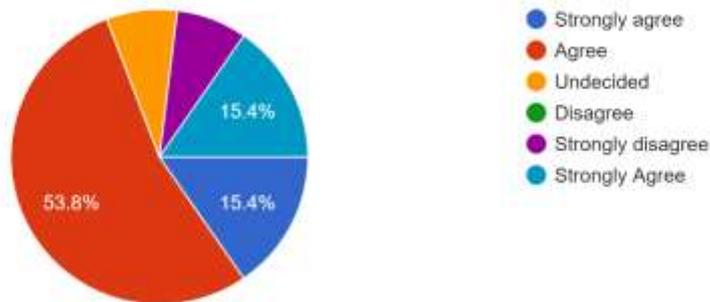

6. I would value further support from school about how to talk to my child about sensitive issues.
 13 responses

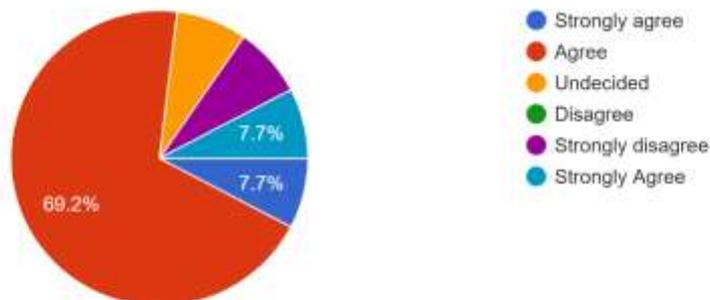

7. I approve of children learning the names of external genitalia in Years 1 and 2
 13 responses

8. I think Y4 is a good time to start learning about physical changes during puberty.
 13 responses

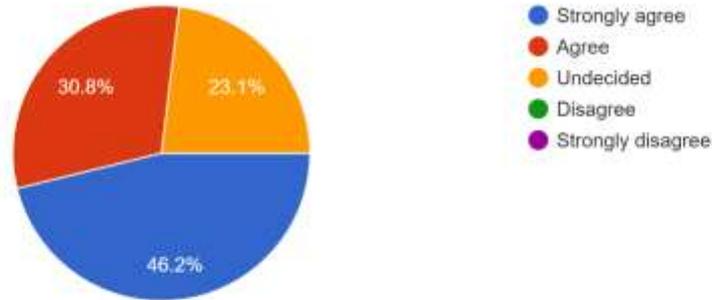

9. I am happy for my child to be taught about sexual intimacy - in Y6 - in a way that is fully respectful of Catholic beliefs.
 13 responses

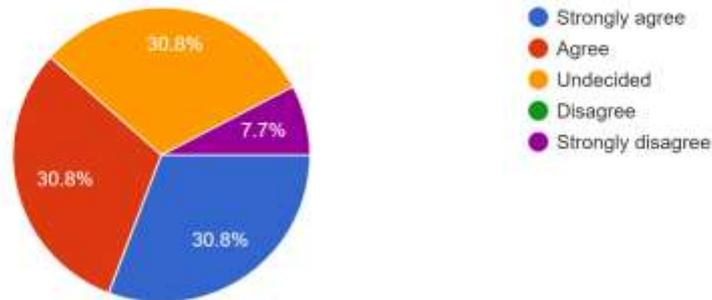

10. I think it is important that the dangers and risks linked to pornography are covered from an internet safety perspective.

13 responses

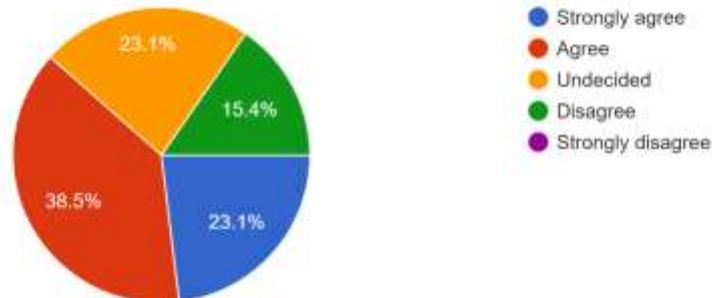

11. I think it is important that pornography is discussed as a way in which people are used/exploited.

13 responses

12. I would like further details regarding the optional content around 'Key Decisions'.

13 responses

Responses:

Q4:

- I feel some topics may not be age appropriate for XXXXX at this time

Q8

- I would like more detail as to how this will be delivered and how in depth these lessons will be.

Q9

- Again, I feel I require more information regarding the content of these classes before I can make a decision as to its suitability.

Q10

- I haven't seen enough information regarding the delivery of this topic to make a decision

Q11

- I haven't seen enough information regarding the delivery of this topic to make a decision
- Agree, but believe this should be in later years.

Q12

- On discussion with my husband, we are more than happy for the programme to be taught but are very mindful of the fact that our children are still innocent and I would ideally like to keep it that way for a while longer. I am more than happy for the correct terminology of body parts to be learnt but at this stage in our children's life (FS2 and Y3), we are still undecided if we want them to fully know about the journey of conception as it will bring up questions around it that don't need to be answered until they are a bit older. I appreciate that the programme is intended to be informative and educational but we would just like to be reassured that it will be delivered at an age appropriate level.
- Whilst I am happy with the majority of content provided regarding the Y3 lessons, I do not feel it is appropriate for XXXXX to learn about conception until she is older. I would like some clarification as to how this topic will be discussed and how in depth the classes will be. I personally feel it would be inappropriate for Y3 to learn about sexual intercourse as they are still so young. I understand this programme is designed to be educational and so I assume that the lessons will be delivered from a biological point of view, however I do feel that teaching the facts of conception will invite questions from the children about things they are too young to understand (sexual intercourse)
